

# RAMANAND DUBEY

Frontend Developer

## PROFILE

Highly skilled Frontend Developer with a passion for creating visually engaging and responsive web applications. Proficient in HTML, CSS, JavaScript and React development. Good in converting design concepts into intuitive user interfaces, ensuring optimal performance, responsiveness of the website and a smooth user experience.

## PROJECTS

### 1. Personal Website | As an Intern

Led the front-end development team in creating a highly responsive personal website for 'Equilaw Associates', enhancing user engagement metrics and achieving an average load time.

### 2. Form Filling Website | Mini Project

This website provides a platform for users to submit forms, which are then processed and stored securely.

### 3. Portfolio

This portfolio serves as a platform to demonstrate my proficiency in HTML, CSS, Bootstrap, and Javascript. This same is also made using React.js.

### 4. Crop Recommendations System | Major Project

This website employs machine learning to forecast optimal crop cultivation based on soil nutrient data.

### 5. Chat-bot UI Integration

An user-interface platform for integrating chat-bots on websites, enabling clients to experience the chat-bot's capabilities on their own web-pages.

### 6. Figma Replication

A replica of the Figma website, suitable for use as an office website.

## EXPERIENCE

### 1. Innovilla | BHU, Varanasi | Frontend Developer

June 2023 - July 2023

Developed a website for the personal website of an advocate named 'Equilaw Associates'.

## EDUCATION

### 1. Information Technology | B.Tech.

**Veer Bahadur Singh Purvancal University, Jaunpur**

(December 2020 - July 2024)

### 2. Intermediate | PCM

**Swami Teonram Alok Senior Secondary School, Kota**
